TARIFF FORMAT

Sheet Numbering: Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 11 and 12 would be Sheet 11.1.

Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current sheet version on file with the Kentucky Service Commission (Commission). For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

All revised sheets in a given filing are designated by an asterisk (*) on the Check Sheet. The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Commission.

The airline mileage between two cities can be calculated using the vertical (V) and horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's FCC Tariff according to the following formula:

$$\sqrt{\frac{(V1-V2)^2 + (H1-H2)^2}{10}}$$

In the above example, the V1 and H1 correspond to the V&H coordinates of "City 1" and V2 and H2 correspond to the V&H coordinates of "City 2."

4.4. Call Timing

Timing of each call begins when the called telephone number is answered and ends when either party hangs up, as determined by standard industry methods in use for ascertaining answer and disconnect, including hardware answer supervision in which the LEC sends a signal to the switch or the software utilizing audio tone detection, or as determined by standard industry methods generally in use for ascertaining answer and disconnect as determined by the underlying Common Carrier for the Company's services, where answer supervision is available. The Company will not knowingly bill for uncompleted calls.
